## Apply to Our Story

Mercy is defined as: God forgiving the sinner and withholding the punishment that is justly deserved.

Grace is defined as: Grace is heaping undeserved blessings upon the sinner.

1. Why is God's mercy and grace towards us sometimes difficult to grasp?
  - How can we pursue child-like faith this week? What could that look like?
  
2. How does understanding God's mercy and grace affect the way that we care for other believers in our life?
  - What are ways we can seek out the lost in our lives this week?
  
3. How does understanding God's mercy and grace challenge or encourage your understanding of forgiveness?
  - What are other ways that may help us forgive people in our lives?
  
4. Spend the majority of your time as a group praying! Pray for each other that we will continue to humble ourselves before our king, for brothers and sisters in our lives who are living as lost sheep and for our hearts as we seek to forgive those in our lives.
